

**AMENDMENTS TO THE SPECIFICATION**

Please amend the paragraph on page 17 starting on line 20 and ending on line 25 as follows:

The term “subcutaneous bolus” refers to drug administration beneath the skin of an animal or human patient, where bolus drug delivery is preferably less than approximately 15 minutes, more preferably less than 5 minutes, and most preferably less than 60 seconds. Administration is preferably within a pocket between the skin and underlying tissue, ~~where the~~
